

HARRODIAN

Curriculum Policy

Harrodian offers a curriculum that is characterised by breadth, balance, coherence, relevance, differentiation and progression and which will lead to success in public examinations. We aim to challenge pupils so that they take pride in their work and attain the highest levels of which they are capable. Pupils are encouraged to have high expectations of themselves and to learn to work both independently and in co-operation with one another.

The curriculum throughout the School is reviewed regularly to ensure that it reflects any changes and particularly those associated with GCSE and A Level qualifications. At the beginning of each academic year parents are provided via the website with a curriculum handbook which provides concise information about the subject content to be studied.

The General Aims of the Curriculum

- To encourage a set of personal values based on honesty, trust, tolerance, understanding, caring and respect for others.
- To generate a passion for knowledge and learning.
- To stimulate pupils to think for themselves.
- To enable pupils to develop self-reliance, self-esteem and self-confidence.
- To have an informed perspective about the role of the individual in the community, in society, in Europe and in the world.
- To promote health and fitness.
- To prepare for the future in an increasingly changing world.

Teaching and Learning

Teachers have high expectations of their pupils and use a range of teaching methods. A shared experience between teachers and learners is developed with the promotion of the view that learning is enjoyable, stimulating, rewarding and confidence-building. Various curricular areas reinforce and complement each other so that the concepts, skills and attitudes developed in one area may be put to use and provide insight into another, thus increasing pupils' understanding, competence and confidence.

Teachers seek constantly to maintain and improve teaching standards and to assess expectations and achievements. Regular feedback is given to pupils in order to ensure that they are aware of their achievements and what is required to make progress.

Training and professional development are provided for staff to ensure that they are informed of current initiatives and developments in their subject areas.

Heads of Department are responsible for preparing schemes of work that ensure that the curriculum is delivered effectively to all pupils, including the most able and those with specific learning needs. Heads of Department are also responsible for their departmental development plans.

Differentiation

The staff at Harrodian are committed to promoting educational opportunities for all pupils in all aspects of the life of the School.

They believe that the School should be providing a quality of education which recognises every pupil's right to learning in an environment which is free from any sort of harassment, exemplifies the principle of mutual respect, and is sensitive to their learning and personal needs. These key principles lead us to policies which equally establish rights and responsibilities.

It is on such understandings and developments that we build our intention to provide well for the learning needs of all pupils.

We expect the policy on differentiation to result in:

- a measurable impact on educational achievement
- a measurable impact on self-image and personal development
- a measurable impact on pupils' attitudes to their own work and chances of success, and a sense of personal pride in real achievements
- early identification of particular skills and talents
- early identification of learning needs
- a sense of mutual respect between adults and pupils, and between the pupils themselves
- effective support to improve pupils' literacy and numeracy
- breadth of curriculum to match pupils' attainment, abilities, aptitudes and aspirations
- providing study support so that work can be completed outside of class, in a supported and friendly environment
- greater parental involvement and family learning, creating opportunities for learning together and supporting achievement in all aspects of pupils' learning

To this end, the School will show that it takes seriously its rights and responsibilities for matching learning opportunities and programmes to pupils' learning needs, by:

- providing learning opportunities which ensure that all pupils, regardless of ability, background, race, gender, motivation or aspiration succeed as well as they possibly can whilst at the School
- ensuring that the learning opportunities available prepare all pupils well for adult life, its work, its learning and its leisure
- creating opportunities for staff to learn, practise and debate all issues which might improve teaching and learning

- creating opportunities for subject team planning to incorporate differentiation into teachers' lessons through the development of an appropriate range of resources, tasks and challenges
- creating a flexible curriculum which provides well for all pupils by stimulating them to learn and develop their potential
- providing lively and interesting teaching which opens doors to learning
- identifying early pupils' individual learning needs by means of effective, coordinated baseline assessment, efficient record keeping by subject teachers and systematic use of records to obtain up-to-date information about learning needs and progress against targets
- providing well trained extension support assistance for pupils with special gifts and talents in and beyond the classroom
- ensuring that all teachers know how to provide support for language learning for pupils with English as an additional language

Teachers will show that they take seriously their rights and responsibilities for providing teaching and learning which is well matched to pupils' needs, by:

- considering at all times when planning their lessons how pupils of different abilities, aptitudes and talents learn and following the example of the best practice in the School
- providing lively and interesting teaching which stimulates the continuing interest of all pupils in the subject
- devising a challenging subject scheme of work which helps pupils to make good progress at a pace which is appropriate to their abilities, aptitudes and talents
- giving unobtrusive guidance to pupils about how to improve their work
- involving parents in supporting learning by producing short synopses of what will be covered in each term in a course
- analysing carefully the knowledge and skills required to learn well in planned contexts, so that tasks set are challenging and interesting but not daunting
- analysing the required knowledge of English for particular tasks, and ensuring that the language capabilities of pupils match the tasks set
- understanding the links between learning styles, language learning needs, tasks set, activities required, resources and learning support for individual pupils to make good progress

It is expected that pupils will show that they take their rights and responsibilities seriously by:

- responding well to challenges set and being determined to meet challenges
- finding ways of completing homework at home or in School
- participating in any extra activities made available to them
- expressing their needs for help whenever this is necessary
- making every effort to improve their work.

Pre-Prep Curriculum

Harrodian Pre-Prep is a place where everyone learns and works in surroundings where there is light, space and colour. Pupils take pride in their School and in what they do, and this is a spur to greater effort and concentration.

Overview of Reception Curriculum

The last year of the Early Years Foundation Stage (EYFS) is referred to as the Reception year. The EYFS prepares children for learning in Key Stage 1 and is consistent with both the National and Harrodian curricula.

Reception is hands on, purposeful and organised to help each child progress. Activities new to the children include one-to-one reading, daily phonics lessons, taking reading books home each day, and the recording of maths and literacy work.

Children deepen their understanding by playing, talking, observing, planning, questioning, experimenting, testing, repeating, reflecting and responding to adults and to each other. The Harrodian Reception curriculum is organised into seven areas of learning.

- Personal, social and emotional development
- Communication and language
- Literacy
- Mathematics
- Understanding of the world
- Expressive arts and design
- Physical development

Pre-Prep 1, 2 and 3

Pupils in Pre-Prep 1 and 2 follow the Key Stage 1 National Curriculum and those in Pre-Prep 3 the Key Stage 2 National Curriculum.

The following subject areas form part of the weekly timetable and are taught by the class teacher:

- Literacy
- Numeracy
- Science
- History
- Geography
- Religious Education
- Art
- Design and Technology
- Citizenship

Specialist subject teachers teach:

- French
- Computing
- Music
- Sport
- Drama

All pupils in the Pre-Prep are expected to read for approximately 10-15 minutes each night. Pupils will also receive homework during the week according to a homework schedule.

Prep and Senior Curriculum

The tables below illustrate the curriculum plans for the Prep and Senior Schools (8s to 15s).

C = Core subject – compulsory for all pupils

O = Option subject

The total number of lessons each week for each subject is denoted as a number.

Each lesson is generally 55 minutes (with the exception of lesson 5 for the Prep School which is 50 minutes).

Prep School Curriculum

- In the Prep School, pupils follow a curriculum which evolves as they move through the School to offer a developing range of academic options.
- Pupils are taught 6 lessons a day – 3 in the morning from 8.55 to 12.05 and 3 in the afternoon from 1.20 to 4.00.
- In the Lower Prep (8s, 9s and 10s) pupils follow a curriculum that includes English, Maths, Science, French, Geography, History, Religious Studies, Computing, Art, Music, Drama, Latin and Physical Education.
- Pupils in the Lower Prep will also have one timetabled form period each week that is taken by their Form Teacher. This lesson is used for Personal, Social, Health and Economic Education (PSHE) and citizenship.
- In the Upper Prep (11s and 12s) English, Maths, Science, History, Geography, Religious Studies and Physical Education are studied as separate subjects following our own Harrodian curriculum. Pupils must choose two languages from: French, Spanish, Italian and Latin and commit to a two-year programme of study. From GCSE, they will choose one of these language options.
- The Latin course in the 11s and 12s is an ideal foundation from which to pursue GCSE/A Level Latin in our Senior School.

Prep School Curriculum Plan 2024-2025

- **C denotes a Core Subject taught to all pupils**
- **O denotes an option subject**
- **Numbers denote the number of lessons per subject per week**

Subject	8s	9s	10s	11s	12s
Art	C 1	C 1	C 1	C 1	C 1
Humanities (Geography, History RS)	C 3	C 3			
Science	C 3	C 3	C 3	C 4	C 4
Drama	C 1	C 1	C 1	C 1	C 1
English	C 7	C 6	C 5	C 5	C 5
French	C 2	C 2	C 2	C 2	C 2
Spanish				O 2	O 2
Italian				O 2	O 2
Geography			C 2	C 2	C 2
History			C 2	C 2	C 2
Computing	C 1	C 1	C 1	C 1	C 1

Latin	C 1	C 1	C 1	O 2	O 2
Maths	C 6	C 6	C 5	C 5	C 5
Music	C 1	C 1	C 1	C 1	C 1
Physical Education/Sport	C 4	C 4	C 4	C 3	C 3
PSHE/Citizenship	C 1	C 1	C 1	*	*
RS			C 1	C 1	C 1

*Timetabled PSHE/Citizenship lessons are taught during one lesson every two weeks, delivered by Heads of Year. In addition, there are occasional one-off sessions delivered by external providers and occasional form lessons at the start of the day from 8.30 to 8.55. The PSHE (including FBV) and RSE curriculum are reviewed to ensure that there is adequate sequencing and gaps are highlighted. Additional time is allocated to revisit content if necessary.

Senior School (13s to 15s) Curriculum

Pupils in the 13s to 15s are taught 6 lessons of 55 minutes each day – 4 in the morning from 8.55 to 13.00 and 2 in the afternoon from 2.10 to 4.00.

Pupils in the 13s follow a broad curriculum of core and option subjects and firm foundations are set for the subsequent study of GCSEs in the 14s and 15s. All pupils are required to take the core subjects (English, Mathematics, Biology, Chemistry, Physics, Physical Education, one Modern Foreign Language - either Spanish, French or Italian - and Citizenship). In addition to the core subjects, pupils must choose three option subjects from the following list: Art, Business, Computing, Drama, Latin, Classical Civilisation, Media, Sport Science, Film Studies, 3D Design and Music.

In the 14s and 15s pupils are prepared for GCSE. More able mathematicians are also prepared for the AQA Level 2 (GCSE Equivalent) Further Mathematics. All pupils are required to take the core subjects (English, English Literature, Mathematics, Biology, Chemistry, Physics and one Modern Foreign Language – either French, Spanish or Italian, together with 3 option subjects from the following list: Art, Business, Classical Civilisation, Latin, Greek, Geography, History, Computing, Media Studies, Film Studies, Physical Education, RS, Drama, 3D Design and Physical Education.

Some pupils are prepared for Separate Science GCSEs (3 GCSEs) whilst others are prepared to sit the Combined Award (2 GCSEs). Decisions as to which route a pupil will follow are made after the summer examinations in the 13s.

All pupils in the 14s and 15s are taught Physical Education/Sport (3 lessons a week).

Senior School (13s to 15s) Curriculum Plan 2024-2025

- C denotes a Core Subject taught to all pupils
- O denotes an option subject
- Numbers denote the number of lessons per subject per week

Subject	13s	14s	15s
English (Language and Literature)	C 5	C 5	C 5
Mathematics	C 4	C 4	C 4
Biology	C 2	C 2	C 2
Chemistry	C 2	C 2	C 2
Physics	C 2	C 2	C 2
French	O 3	O 3	O 3
Spanish	O 3	O 3	O 3
Italian	O 3	O 3	O 3
History	C 2	O 3	O 3
Geography	C 2	O 3	O 3
RS	C 1	O 3	O 3
Art	O 1	O 3	O 3
Business	O 1	O.3	O.3
Classical Civilisation	O 1	O 3	O 3
Drama	O 1	O 3	O 3
Computing	O 1	O 3	O 3
Latin	O 1	O 3	O 3
Greek		O 3	
Media Studies	O 1	O 3	O 3
Film Studies	O 1	O 3	O 3
Music	O 1	O 3	O 3
3 D Design	O 1	O 3	O 3
Sport Science/Physical Education	O 1	O 3	O 3
Physical Education /Sport	C 3	C 3	C 3
PSHE	*	*	*
Citizenship	C 1	*	*

*In the Senior School PSHE including Citizenship and RSE is delivered during form times by form tutors. In addition, there are “whole lesson” PSHE sessions arranged each academic year, some of which are delivered by external providers. The PSHE (including FBV) and RSE curriculum are reviewed to ensure there is adequate sequencing and gaps are highlighted. Time is allocated to revisit content if necessary.

Sixth Form and A Level Curriculum

Tuition is available at Advanced Level in the following curriculum areas:

- Art and Design
- 3D Design
- Biology
- Business
- Chemistry
- Classical Civilisation
- Drama and Theatre Studies
- English Literature
- English Language
- Film Studies
- French
- Geography
- Graphic Design
- History
- History of Art
- Italian
- Latin
- Mathematics
- Further Mathematics
- Media Studies
- Music
- Physics
- Psychology
- Philosophy
- Photography
- PE
- Politics
- Religious Studies
- Spanish
- Extended Project Qualification

In the Lower Sixth students typically study 4 (or in some cases 5) A Level courses. In the Upper Sixth pupils usually continue with at least 3 A Levels.

The standard teaching allocation for A Level courses is 6 x 55-minute periods per week.

Students in the Lower and Upper Sixth also participate in compulsory Physical Education/Sport lessons (3 lessons a week).

Citizenship and RSE are delivered during form times by form tutors. Students will also be taken off timetable for additional PSHE and RSE lessons, some of which are delivered by external providers.

The PSHE (including FBV) and RSE curriculum are reviewed to ensure that there is adequate sequencing and gaps are highlighted. Time is allocated to revisit content if necessary.

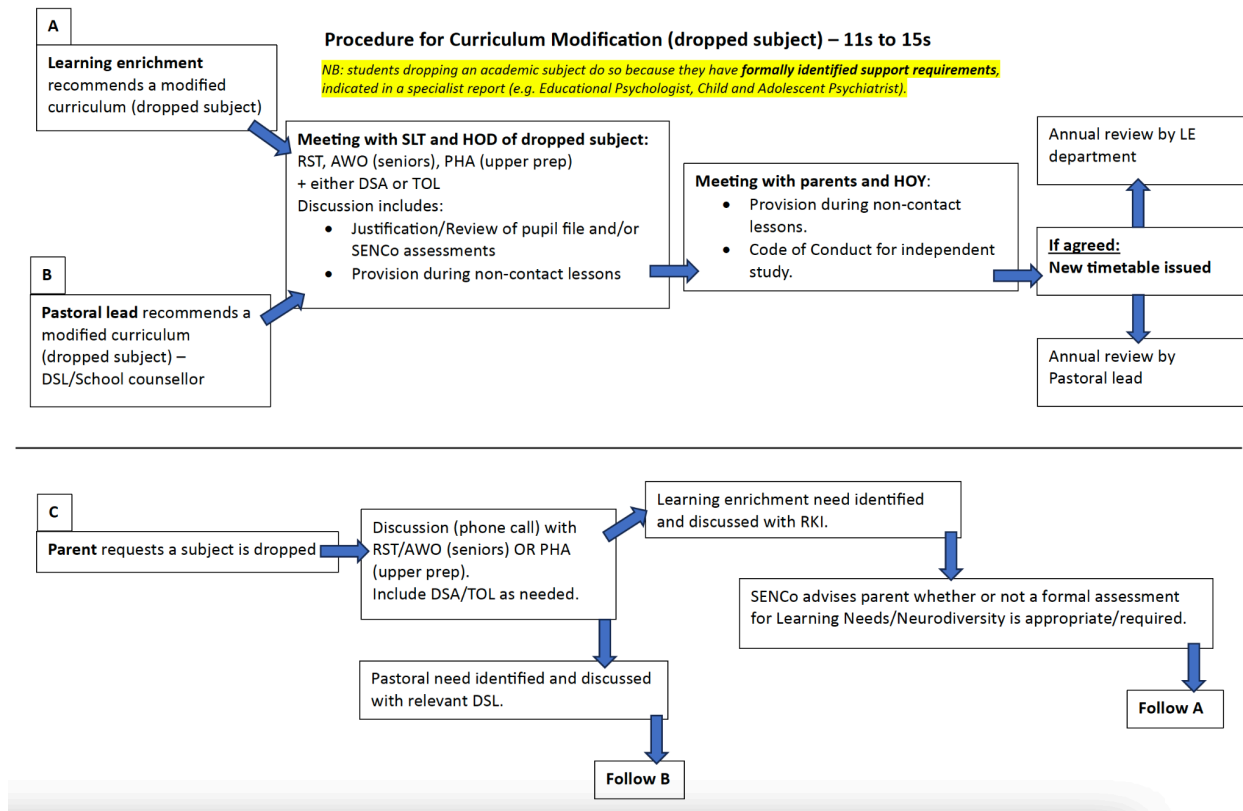

Changing Courses

The School recognises that there can be occasions when a pupil may, for one reason or another, wish to change their options or drop a subject.

A great deal of effort will have been expended in reaching any individual pupil's choice of course in advance of the start of the academic year and any alterations to those well-discussed and researched decisions may not be undertaken lightly. The following points will be reviewed before any changes can be made:

- The implications for change at the stage the pupil is at. For example, has the pupil considered the implications for future courses both at the School and in Higher Education or employment?
- What are the opinions of the relevant Heads of Departments?
- Have the parents been fully consulted and do they approve of the change?

There may be a wide range of further considerations affecting a request for curriculum modification, including pastoral support requirements and SEN identified by the Learning Enrichment department. The final decision will be taken by relevant SLT as outlined below. The flow chart summarises the procedure that is followed when curriculum modification is being considered for any pupil in the Upper School:

Homework in the Prep and Senior School

Homework should extend or prepare for class work, or may be used as an assessment of progress and understanding. Homework should enable pupils to actively reorganise knowledge and use it to ensure comprehension and develop independent learning skills. On occasions, homework may involve preparatory work for a new topic (reading, researching).

Parents or tutors doing the homework for a pupil will not fulfil these aims. Parents are however encouraged to assist pupils at home in practical ways i.e. reading to and listening to their child read, discussing books with their child, helping reinforce key skills e.g. testing spellings and multiplication tables, making sure they have a quiet place to work and have access to all the resources they need.

A homework timetable for each year is devised by the Head of Year in conjunction with the Heads of Department. Homework should be completed on the day it is set, when the time has been allocated to it. Exceptions may be project work or coursework where more time may be needed. Naturally there will be exceptions to the homework timetable due to School trips and other events in the School.

It is vital that homework is marked quickly (see *Marking, Assessment and Reporting Policy*) and that pupils are given feedback on their achievements.

Subject teachers should ensure that homework is written on the board and/or posted in Google Classroom well before the end of the lesson and that pupils have sufficient time to copy it down correctly into their planner. For Prep pupils, staff should check that pupils have written down their homework correctly into their planners.

Form teachers should where possible display their homework timetable in form rooms as a reference to query if pupils have written “none set”. Staff can use the pupil planner to convey to parents their concerns if pupils fail to have correct equipment or homework. If necessary, parents could be asked to sign the comment.

School Planners should be checked during the form lesson to ensure that pupils are correctly logging homework requirements each day. Planners should be checked during the final registration of the day to ensure that all pupils have copied down their homework correctly. If no homework has been given, pupils must write ‘None set’.

The amount of homework set should be approximately as follows.

8s

40 minutes per night. It will consist of 10 minutes reading and spellings daily. There will also be the opportunity to undertake some independent research or project work which may take a further 20 minutes per night, as directed by the subject teacher.

9s

45 minutes per night. It will consist of 10 minutes reading and spellings daily. There will also be the opportunity to undertake some independent research or project work which may take a further 25 minutes per night, as directed by the subject teacher.

10s

50 minutes per night. It will consist of 10 minutes reading and spellings daily. There will also be the opportunity to undertake some independent research or project work which may take a further 30 minutes per night, as directed by the subject teacher.

11s

1-2 pieces of homework which should take 30-35 minutes each, plus 20 minutes reading. When there are exams/tests, pupils will be expected to spend longer working at home.

12s

1-2 pieces of homework which should take 40 minutes each, plus 20 minutes reading. When there are exams/tests, pupils will be expected to spend longer working at home.

13s

2-3 pieces of homework which should take 40 minutes each.

14s

2-3 pieces of homework which should take 45 minutes each.

15s

2-3 pieces of homework which should take 45 minutes each.

Sixth Form

1 hour per subject studied that day. If homework cannot be completed during the prescribed time allocation a parent/guardian should write a note in the student planner. If homework has been completed within the allocated time, any remaining time should be used to consolidate on the work covered that day for that subject.

The School considers homework to be a vital part of a pupil's learning and, as such, will not tolerate homework that is not handed in, not completed to the best of a pupil's ability or is inadequate. For sanctions related to homework, please refer to the School's *Behaviour Policy*.

Presentation of Work

The Harrodian pupil is expected to take pride in the lay-out, presentation and neatness of every piece of work.

The date should be on the top line of the piece of work together with the pupil's name (if needed) and a neatly underlined title.

Pupils in the Lower Prep are encouraged to present their work according to the [Lower School Presentation Policy](#).

Handwriting should be neat as well as legible: use ink pens, with black or blue ink rather than biro, pencil or fluorescent pens. The redrafting of work by pupils will be carried out using purple pens. Diagrams and drawings should be done in pencil.

Mistakes should be crossed out with a single ruled line – Tippex should be avoided.

Diagrams

- Each diagram should have a title written in pen and underlined with a ruler.
- A sharp HB pencil should be used for drawing and a pencil and a ruler should be used to draw lines.
- A pen should be used for writing labels.

Graphs

- Each graph should have a title written in pen and underlined with a ruler.
- Graph axes should be drawn in pencil with a ruler and should be labelled using a pen.
- Graphs should be plotted in pencil using a ruler where necessary.
